Welcome to the 3rd CoP Call
We plan to hold these once a month through May 2017.

Facilitators today:
Evilia Jankowski, Michigan Association of School Nurses President (ejankows@geneseeisd.org)
Nichole Bobo, Director of Nursing Education at NASN (nbobo@nasn.org)

GoToWebinar Software Overview
• Why are we using this platform for the call?
  o Because we anticipate the number of participants will continue to grow. A traditional
    conference line works best with less than 20 people.
• All participants are automatically on mute
  o Reviewed how to “raise your hand” or type in a comment to have your line unmuted
• We plan to provide a quick overview at the beginning of each call

Welcome – The Goal of Our CoP  (Evilia)
• This is a strategy to connect school nurses from across our state
• We propose doing this monthly the 2nd Wednesday each month through May 2017
• Based on feedback from the last call, today’s focus is on the school nurse role in addressing opioid
  drug abuse

Implication for School Nursing Practice in Michigan (Evilia)
• Opioid drug abuse in Michigan – overview of national and state data.

  • From the audience- requested input from participants regarding what are they doing to support the
    efforts to stock and administer Naloxone in their schools?
  • Coming from MDE- the guidance from MDE has not yet been released. It was suggested that this
    guidance be included in an updated medication administration guidance.

  • Next steps - preparation can begin now.
    o Adapt-Pharma has confirmed that they will supply high schools with a free dose of
      Naloxone. There is a form to complete.
    o It is also suggested that a comprehensive policy that includes prevention education using
      Michigan Model, training by an RN (School nurse preferred) and resources for identification
      of use/overdose and referral for treatment be promoted by school nurses.

NASN Resources (Nichole)
• As a school nurse, you provide leadership for student health
  o You have the education & expertise to assist your school community re: the need for a
    policy/program around this topic
Use NASN resources to help develop your school/district policies & programs

- Focus on prevention
- Plan for training school staff
- Invite yourself to the table to collaborate with local stakeholders

NASN resources include:

2. *Naloxone in Schools Toolkit* (2016) (available free at: [https://www.pathlms.com/nasn/courses/3353](https://www.pathlms.com/nasn/courses/3353)). Contents include:
   - Fact sheet: *Questions to Consider in Development of Naloxone in School Program*
   - Naloxone resources sheet: Links to sample policies & protocols
   - Sample Naloxone Policy
   - Protocol: *Naloxone Administration – Evzio Auto Injector*
   - Flow sheet: *Intramuscular Naloxone Administration (Evzio)*
   - Protocol: *Narcan Nasal Spray Administration*
   - Flow sheet: *Narcan Nasal Spray*
   - Form: *Report of Naloxone Administration*
   - Powerpoint presentations:
     - Community Opioid Education
     - Training for School Staff
     - Naloxone in Schools Advocacy

3. Upcoming webinar in May
   - Topic: How to use the NASN toolkit, featuring Becky King
   - CNE will be provided

4. Upcoming webinar summer 2017
   - Topic: How to develop an opioid awareness campaign
   - CNE will be provided

**Next Steps**

- Ideas for next topics to address - What do you need to do your job?
  - Written protocols & procedures to foster consistent care
  - Documentation Ideas provided
  - Michigan’s medication guidelines with a focus on OTC products
  - Management of student medications on field trips

- **Continue to send ideas to us!**

  - **Next call: April 12, 2017 2:30-3:30 pm eastern**
    - Look for the GoToMeeting request to register
    - You do not need to be at your computer, but you do need the phone number provided to call in
  - Call minutes & the recorded call can be found on the MASN website
