Welcome to the 4\textsuperscript{th} CoP call for this school year – a strategy to connect school nurses across Michigan.

**Introduction** of facilitators and call participants

**Professional Organization Membership** - Membership in your professional organization – another strategy to connect with practicing school nurses from Michigan and across the country

- NASN (Nichole)
  - Annual membership dues to NASN include membership to MASN ($154)
  - Click on the **Membership: Join or Renew** button on the NASN website [www.nasn.org](http://www.nasn.org)
  - Benefits of NASN membership - click on **Benefits of Membership** to see a list of the many benefits that come with membership
  - Key NASN resource even if not a member: NASN’s Weekly Electronic Digest. Go to [https://www.nasn.org/Home/NASNWeeklyDigest](https://www.nasn.org/Home/NASNWeeklyDigest) to subscribe.
  - NASN’s annual conference is being held in San Diego June 30-July 3\textsuperscript{rd}. See the website for details.

- MASN (Phyllis)
  - Benefits of MASN membership
  - MASN’s annual conference will be held in Ypsilanti May 11-12. Early registration ends soon so get registered! See the website for more details [www.michiganschoolnurses.org](http://www.michiganschoolnurses.org)
  - The president of NASN will be a keynote speaker and Nichole will also be presenting.
  - Every other year MASN also holds a fall conference in addition to the annual spring conference.

**National Certification Exam for School Nurses**

Phyllis is currently studying for her national certification and would welcome any study partners.

- Increasing the number of board certified school nurses is a natural next step in advancing the practice of school nursing.
- There are winter and summer testing windows. The exam is offered at testing centers around the state, similar to the board exam.

**Implications for School Nursing Practice in MI**

- **New RN license requirement**
  - Rule 338.604 requires licensees to complete one time training in identifying victims of human trafficking beginning with the 2017 renewal cycle. This training requirement will need to be completed prior to the license renewal in 2019. This training on identifying victims of human trafficking does not count towards required CE unless the training also satisfies a Board’s requirements for CE/CPD/PDR. OnCourse Learning’s training does satisfy the Board’s requirements and may be used to meet MI nurses’ CE requirements.
  - One credit unit in identifying victims of human trafficking is required with 2017 license applications and 2019 renewals. MASN plans to add training on human trafficking soon, in order to satisfy this requirement.
There is an app to download that provides information regarding risk factors for human trafficking. Information on the app is included at the end of these notes.

- Michigan’s medication guidelines (Phyllis)
  - The group discussed the administration of OTC products and concerns around administering OTC without a physician’s order. Everyone on the call was reminded to check their district policy regarding medication administration. While some school nurses have trouble getting authorization forms returned from physician’s offices most reported that faxing the form and getting a signed form returned is best practice and a protection for all involved. Some districts have a medical director who provides standing orders but many do not have access to a medical director. Some districts have parents sign an authorization form for certain OTC products. Checking and following district policy is important. OTC products may seem benign, but reactions can and do occur.
  - The group was encouraged to check their policy frequently as they sometimes change without notice being given to the school nurse. If your district uses NEOLA for policy development changes can be quickly made and approved by the board and you might not know that it happened.

- CPR training
  - Krisca Gould, CPR in Schools Manager with AHA, will be in contact with each of the regional School Health Coordinators before the start of the 2017/2018 school year to offer free of charge a specified number of CPR in Schools training kits so that each region can start a lending program for their local school districts. (Wayne, Oakland, and Macomb received their kits last week.) To find the School Health Coordinator in your area go to www.mishca.org and click on the WHO tab at the top of the page.
  - The kits are portable and each includes:
    - 1 wheeled classroom carry bag
    - 10 Mini Anne Plus® inflatable manikins
    - 10 kneel mats
    - 10 individual carry bags
    - 5 practice-while-watching training DVDs
    - 1 hand pump for manikin inflation
    - 2 mesh collection and storage bags
    - 10 replacement airways
    - 50 manikin wipes
    - 10 replacement face masks
    - 10 AED training simulators
    - 1 Facilitator Binder that contains the lesson plan, pre-and- post-test, and additional supplementary material
    - 1 Facilitator Guide

Questions
- A question was asked about legal ramifications of parents wanting to transport a child experiencing an allergic reaction to the emergency department themselves. The group responded that a student with known allergies should have an emergency care plan that should be followed. If it is someone not known to have allergies there should be a protocol in place to be followed. If an epinephrine auto-injector is used then 911 must be called immediately and then parents called.
A question was asked about whether or not Michigan is looking at legislation regarding Narcan in schools. There is legislation that states schools have the option of stocking Narcan (Public Act 384 and 385 of 2016). If they make that choice then it must be stocked in all buildings. Last month’s CoP call addressed this in more detail and the notes can be found on the MASN website at www.michiganschoolnurses.org. There is also a link to a Naloxone Toolkit on the NASN website www.nasn.org. It is an excellent resource that is available to members and non-members and is free. You will simply need to register. It was also noted that MDE is in the process of developing recommendations for schools choosing to stock Narcan.

Next Steps

- Last call for this school year will be **May 17, 2017; 2:30 – 3:30**
  - Please send any ideas you have for agenda items to Phyllis (see email above)
  - Electronic medical records was given as an agenda idea for the next call.
  - Registration information (GoToMeeting request) and an agenda will be sent closer to the date. You do not need to be at your computer, but you do need the phone number provided to call in
- Notes & the recorded call can be found on the MASN website

THANK YOU TO EVERYONE ABLE TO JOIN US!
